Forgive me for this, but I'm going to be harsh here. Magic Potion Destroyer is essentially an idle clicker game. Whilst the lore is plenty interesting and makes you want to continue, that's essentially all there is to it. It's like if you took Magic Potion Explorer and made fifty levels or something of the same exact damned hundred floor slog. The only difference between the levels is what the starting bonuses/penalties are. And well, a few spoiler-y things but I won't get into that. I won't go so far as to say the game is

lazy, because it isn't. It does however get extremely repetitive extremely fast. All in all, if you like idle games you'll probably enjoy this, but if you're an RPG person steer clear. This is definitely not a \$10 game and perhaps not even \$5. Grab it if it's ever on sale for less than \$3.. Forgive me for this, but I'm going to be harsh here. Rosenkreuzstilette Update - 29/09/2017 : Hi All We just updated Rosenkreuzstilette to fix the sound bug a few of you were reporting regarding voices! We've gone in and re-balanced it all, so it should be running as intended now! We hope that you continue to enjoy the game!. Story from development : Originally, this game was intended to be a visual novel. We wrote this story long before development of our previous game, at a time when our attention was focused on creating visual novels. But we wanted to wait and give form to this story after gaining more familiarity with game development. As time passed we became interested in game genres other than visual novels. We were able to give form to the story by the time we had mastered development tools. So it is at this time and taking on this form that our story has revealed itself. Unlike novel games, there is little text and a lot of information, but that is what worked best for this game's system. We hope you enjoy uncovering this world through information revealed part by part. Add Magic Potion Destroyer to you wishlist now to stay up to date.. The Music of Magic Potion Destroyer #2 : Hi All The music in Magic Potion Destroyer plays a very key role in the story and progression of the game. The developer made sure that there was a different song for each stage in the game to convey certain elements. For each track in the game, he will be sharing his comments and thoughts on the tracks. Today we will be continuing this series.
